Whereas, on February 24, 2004, the Government of Iran informed the IAEA of its decision to expand the scope and clarify the nature of its decision to suspend to the furthest extent possible the assembly and testing of centrifuges and the domestic manufacture of centrifuge components, including those related to existing contracts, informed the IAEA that any components that are manufactured under existing contracts that cannot be suspended will be stored and placed under IAEA seal, invited the IAEA to verify these measures, and confirmed that the suspension of enrichment activities applied to all facilities in Iran;

Whereas, in November 2004, the Governments of the United Kingdom, France, and Germany entered into an agreement with Iran on Iran's nuclear program (commonly referred to as the "Paris Agreement"), securing a formal commitment from the Government of Iran to voluntarily suspend uranium enrichment operations in exchange for discussions on economic, technological, political, and security issues;

Whereas the Department of State has reported for a decade on Iran's state sponsorship of terrorism and has declared in its most recent Country Reports on Terrorism that Iran "remained the most active state sponsor of terrorism in 2004";

Whereas President of Iran Mahmoud Ahmadinejad expressed, in an October 26, 2005, speech, his hope for "a world without America" and his desire "to wipe Israel off the map" and has subsequently denied the existence of the holocaust;

Whereas Article XII.C of the Statute of the IAEA requires the IAEA Board of Governors to report the noncompliance of any member of the IAEA with its IAEA safeguards obligations to all members and to the Security Council and General Assembly of the United Nations;

Whereas Article III.B-4 of the Statute of the IAEA specifies that "if in connection with the activities of the Agency there should arise questions that are within the competence of the Security Council, the Agency shall notify the Security Council, as the organ bearing the main responsibility for the maintenance of international peace and security";

Whereas, on September 24, 2005, the IAEA Board of Governors adopted a resolution finding that Iran's many failures and breaches of its obligations to comply with the Safeguards Agreement constitute non-compliance in the context of Article XII.C of the Statute of the IAEA and that matters concerning Iran's nuclear program have given rise to questions that are within the competence of the Security Council as the organ bearing the primary responsibility for the maintenance of international peace and security;

Whereas, on January 3, 2006, the Government of Iran announced that it planned to restart its nuclear research efforts, nullifying the Paris Agreement;

Whereas, in January 2006, Iranian officials, in the presence of IAEA inspectors, began to remove IAEA seals from the enrichment facility in Natanz, Iran;

Whereas Foreign Secretary of the United Kingdom Jack Straw warned Iranian officials that they were "pushing their luck" by removing the United Nations seals that were placed on the Natanz facility by the IAEA 2 years earlier;

Whereas President of France Jacques Chirac said that the Governments of Iran and North Korea risk making a "serious error" by pursuing nuclear activities in defiance of international agreements;

Whereas Foreign Minister of Germany Frank-Walter Steinmeier said that the Government of Iran had "crossed lines which it knew would not remain without consequences";

Whereas Secretary of State Condoleezza Rice stated, "It is obvious that if Iran cannot be brought to live up to its international obligations, in fact, the IAEA Statute would indicate that Iran would have to be referred to the U.N. Security Council.";

Whereas President Ahmadinejad stated, "The Iranian government and nation has no fear of the Western ballyhoo and will continue its nuclear programs with decisiveness and wisdom."; and

Whereas the United States has joined with the Governments of Britain, France, and Germany in calling for a meeting of the IAEA Board of Governors to discuss Iran's non-compliance with its IAEA safeguards obligations: Now, therefore, be it

Resolved by the Senate (the House of Representatives concurring), That Congress—

(1) condemns the many failures of the Government of Iran to comply faithfully with its nuclear nonproliferation obligations, including its obligations under the Safeguards Agreement (as reported by the Director General of the IAEA to the IAEA Board of Governors since 2003), its suspension commitments under the Paris Agreement, and prior commitments to the EU-3 to suspend all enrichment- and reprocessing-related activities;

(2) commends the efforts of the Governments of France, Germany, and the United Kingdom to seek a meaningful and credible suspension of Iran's enrichment- and reprocessing-related activities and to find a diplomatic means to address the noncompliance of the Government of Iran with its obligations, requirements, and commitments related to nuclear non-proliferation;

(3) strongly urges the IAEA Board of Governors, at its special meeting on February 2, 2006, to order that Iran's noncompliance with its safeguards obligations be reported to the United Nations Security Council; and

(4) calls on all members of the United Nations Security Council, in particular the Russian Federation and the People's Republic of China, to act expeditiously to consider any report of Iran's noncompliance in fulfillment of the mandate of the Security Council to respond to and deal with situations bearing on the maintenance of international peace and security.
